Applied Economics, 1983, **15**, 843–845

Indexes to Volume 15

TITLE INDEX

Alternative models of apprentice recruitment: with special reference to the British engineering industry, 1
Analysis of Iran's oil production policy: a welfare maximization approach, An, 243
Analysis of the objectives of domestic airline firms under CAB regulation, An, 603

Britain's falling money supply: a statistical note, 23
Budget cuts and public sector employment: the case of defence, 531

Canonical correlation analysis of savings and loan association performance, A, 815
CMEA, Money and ruble convertibility, 479
Comparison and reconciliation of full and partial price elasticities, A, 353
Cross sectional study of relative take-over activity, A, 235
Cyclical and structural determinants of the UV relation, 141
Cyclical disequilibrium in the US copper market, 437

Demand for alcoholic drink in the United Kingdom, 1963–78, The, 125
Demand for cigarettes: alternative specifications of Fujii's model, The, 203
Demand for cricket: the case of the John Player League, The, 283
Demand for kerosene: a modern Giffen good, The, 459
Demand for mortgage finance in the United Kingdom, The, 521
Determinants of income of native- and foreign-born men in a multiracial society, The, 759
Determinants of research and development intensity in the UK, The, 379
Determinants of the systematic risk of electric utilities: theory and estimation, 619
Distribution of regional earnings in the UK, The, 507
Dynamics of the US unemployment/help-wanted index relation, 1965–80, The, 831

Econometric analysis of freight rate disparities in US linear trades, An, 403
Econometric forecasts: evaluation and revision, 187
Econometric factors and the composition of juvenile property crimes, 267
Economies of scale in school operation: evidence from Canada, 323
Effect of answering practices on the relationship between CBI survey data and official data, The, 213
Effect of inflation and technology on factor shares, The, 777
Effects of unions and strikes on the rate of growth of total factor productivity in Canada, The, 29
Electricity demand and the elasticity of intra-marginal price, 699
Electricity demand estimation using proxy variables: some reservations, 703
Estimation and testing of a system of demand equations for the UK, The, 81
Estimation of the trend rate of growth of productivity, 807
Evidence on the rationality of expectations in the British manufacturing sector, 425
Evidence supporting shareholder wealth maximization in management controlled firms, 49

Finland's monetary autonomy, 409
Firm formation in manufacturing industry, 177
Forecasting UK consumption, On, 417

Geometric versus arithmetic mean in the measurement of the union/non-union wage differential, 43

Headship rates and the household formation process in Great Britain, 821
Health and youth employment, 715

Implications of the 'learning curve' for firm strategy and public policy, The, 541
Import substitution and the work of the sector working parties, 165
Industry energy price impact model: the case of the hotel industry, An, 705
Inflation and the savings rate, 731
Investment behaviour in a nationalised industry, 665

Limit pricing model for US computer industry: an application, A, 297

Macroeconomic role of relative price variability in the USA and the UK, The, 225
Manufacturing workers private wage supplements: a simultaneous equations approach, 363
Market structure and voluntary product standards, 393
Measures of exchange rate variability for one hundred countries, 583
Multinational corporations and technology diffusion in Hong Kong manufacturing, 309

Applied Economics, 1983, **15**, 843–845

Multiple-output multiple-input model of the hospital industry in North Carolina, A, 341

Performance of three wage equations in postwar Britain, The, 91
Price setting behaviour for traded goods – the Irish case, 153
Productivity growth in the grocery trade, 649
Profitability and risk of CATV operations in Canada, The, 745

Real rate of interest, for whom? The, 635
Regression analysis of the UGC's financial recommendations for universities, A, 107
Risk in supply response: an optimal control approach, 255

Semi-strong form efficiency of the London Metal Exchange, The, 681
Short-run pricing model for a speculative asset, tested with data from the gold bullion market, A, 563
Small country assumption: A note on Canadian exports, The, 73
Stochastic properties of the real interest rate, 793

Thin capital markets: A case study of the Kuwaiti stock markets: a note, 121
Thin capital markets: a study of the Kuwaiti stock market: a reply, 123
Treatment of uncertainty in the application of rational expectations to the analysis of economic policy, The, 451
Unions as 'gatekeepers' of occupational sex discrimination: Canadian evidence, 469

Variance of expected inflation and the rate of inflation: implications from inter-industry wage equations, The, 553

Wage bargaining and the Phillips curve: a macroeconomic view, 61
